REPLOID THREAT!

Future time: AD 21XX ...

Three weeks ago, Sigma's evil scheming set off a "colony fall incident." Zero's death protected the Earth from colliding with the plummeting colony, but Earth was scorched beyond saving, devastated by the severe effects of the Sigma Virus ...

Following the attack, all humans had to retreat underground to escape the toxic pollution blanketing Earth's surface. The pollution has now cooled enough to be measured and contained, and Reploids have begun the recovery operation.

But today, Mega Man X receives a frantic message from Alia:

"X! A huge Reploid is running out of control! Get over here ASAP!"

The dangerous Reploid, believed to have disintegrated during Sigma's attack, has reappeared! X heads to the battlefield armed with Zero's Z-Saber. Can he defeat the Reploid for good this time?

HEROES

MEGA MAN X

Mega Man X leads the 17th Reploid Hunter Unit. He's working on the Earth recovery operation with other Hunters when he receives Alia's SOS.

ALIA

The Hunters' navigator, Alia analyzes situations and provides appropriate backup for Hunters on missions. She has an impressive aptitude for analyzing computer programs.

ZERO

Zero once headed up 0 Unit. A special A-class Hunter, he single-handedly saved Earth from destruction. He has been missing since the Sigma incident. Few believe he'll ever be found.

SIGNAS

A young Hunter general, Signas has gained the corps' trust and loyalty with his cool judgment and level-headed leadership.

DOUGLAS

An expert mechanic, Douglas devises and maintains all the Hunters' equipment, including weapons, vehicles and facilities. He has thrown himself into the recovery operation with fierce dedication.

GATE

Once considered a genius in Replid development, Gate has lately been shunned in scientific circles because his research was misunderstood. His luck begins to change when he discovers something interesting ...

ISOC

Scientist Replid Isoc pulls together an investigative team to resolve the mystery of the "Nightmare Phenomenon."

HIGH MAX

High Max leads an investigative team created by Isoc. His abilities are said to surpass X's and Zero's — yet no one knows why he was created!

This is found in three sizes and restores your character's life in small, medium or complete amounts.

WEAPON ENERGY

This is found in three sizes and restores your character's weapon energy in small, medium or complete amounts.

SUB-TANK

Life Sub-Tanks and Energy Sub-Tanks restore Life or Weapon Energy. You can store Energy Items in a Sub-Tank. The Sub-Tank itself is not lost when used.

IUP

Adds to your remaining characters, up to a total of nine characters.

LIFE UP

Adds to your character's maximum life.

EX ITEM

Increases the starting number of your characters from three to five.

INJURED REPLOIDS

These normal Reploids are captured by enemy Reploids. Some of them are possessed by a Nightmare.

NIGHTMARE SOULS

These appear when you defeat a Nightmare. By acquiring one of these items you earn points and increase your Hunter rank.

POWER-UP PARTS

Power-Up Parts are divided into three categories:

- ▷ **NORMAL PARTS** – Both X and the Hunter can equip these.
 - ▷ **LIFE UP** – Increases your character's maximum life.
 - ▷ **ENERGY UP** – Increases the maximum energy of your character's weapon.
 - ▷ **DOUBLE BARRIER** – Lengthens the invincibility time after your character takes damage from an enemy attack.
- ▷ **EXCLUSIVE PARTS** – Only one character (either X or the Hunter) can equip these.
 - ▷ **MASTER WEAPON** – X only. Increases the attack power of Special Weapons.
 - ▷ **MASTER SABER** – The Hunter only. Increases the attack power of Special Moves.
- ▷ **LIMIT PARTS** – Your character can equip one of these in addition to the maximum number of other equipment. (The total amount of equipment allowed depends on your character's Hunter rank.)
Note: You can equip a Limit Part in the Weapon Select screen (page 12). Once you use a Limit Part, you cannot reuse it until you exit the stage.

X'S ARMOR POWER-UPS

You can create armor by acquiring data files found in Light Capsules hidden somewhere in each stage. To create armor you must collect four pieces of data: HEAD, BODY, ARM and FOOT. You equip armor in the Character Select screen before starting a level. You cannot change your character's armor once a stage begins. Each armor provides different abilities and number of maximum equippable parts. Figure out which armor is most effective in any given situation.

Note: The Hunter can acquire data but cannot equip armor.

- ▷ **FALCON ARMOR** – X is initially equipped with this armor, which was reconstructed from backup data after Mega Man X's battle against Sigma. With this armor:
 - ▷ You can charge your Special Weapon for a more powerful attack by holding down the Special Weapon button (▲ button default).
 - ▷ You can perform Air Dash by pressing the X or ● button during a jump.
- ▷ **BLADE ARMOR** – A supremely powerful armor with both extreme attack ability and high mobility. With this armor:
 - ▷ You can perform Charge Saber by pressing ↑ and pressing the Special Weapon button after charging X-Buster. Charge Saber disintegrates some enemy bullets.
 - ▷ You can perform Mach Dash by pressing the X or ● button + a directional button. The longer you hold down the button, the longer X moves. He also becomes invincible for a short time during Mach Dash.

RIDE ARMOR

In certain stages, your character can move on a Ride Armor.

RIDE ARMOR: RAIDEN

Move close to the Ride Armor to get on it. To dismount, press the directional button ↑ + the Jump button (X button default).

While on the Ride Armor, press the Attack button (■ button default) to punch. By repeatedly pressing the Attack button with the correct timing, you can perform a combo. Hold the Attack button briefly and then release it to perform a more powerful attack. While your character is on the Ride Armor, it takes damage (instead of your character) when hit. After taking a certain amount of damage, the Ride Armor breaks.

ALIA'S HINTS

- ▷ **SOUND MODE** – Choose **STEREO** or **MONAURAL** depending on your speaker.
- ▷ **SOUND TEST** – Sample game music.

SAVING & LOADING GAME DATA

- ▷ **SAVING GAME DATA** – Saving game data requires one free block in your memory card. Make sure to insert the memory card into **MEMORY CARD** slot 1 before starting the game. When you complete a stage, select **MEMORY CARD** slot 1 in the Mission Report screen (page 13) to save your game progress (except for number of remaining characters) and Option mode settings. You can save up to eight files.
- ▷ **LOADING GAME DATA** – You can load previously saved game data to continue play from the point where you saved. Select **CONTINUE** in the Mode Select screen (page 7), and select **LOAD FROM MEMORY CARD**. In the Load Data screen, select the saved game you want to play.
