SPECIAL ATTACKS

Attacking in conjunction with the directional buttons or jumping will allow you to perform various intricate actions.

- **[Upward Thrust]** • • • Jump → Attack (*While rising on a jump)
  You will jump and attack overhead. This is stronger than a regular attack and is especially effective against flying enemies.

- **[Downward Thrust]** • • • Jump → Attack (*While coming down from a jump)
  You will attack the ground after a jump. This is especially effective in getting multiple hits, against slow moving enemies, and enemies that crowd.

- **[Dash Slash]** • • • Directional buttons → Neutral (Release the directional buttons) + Attack
  You will dash and attack. The key to performing this attack is to work on your timing and properly release the directional buttons to neutral, then attack. If this attack hits its mark, some enemies will be knocked upward. The amount of time they are in the air will be brief, but you can get an easy hit during this time.

- **[Dash Jump]** • • • Dash Slash + Jump
  You will jump further than with a regular jump. If you make good use of this action, you will be able to reach places you normally could not.

- **[Critical]** • • • Attack
  This is a strong attack that occurs occasionally. You can do almost twice the damage of a regular attack. This occurrence will increase with luck.
During the course of your adventure, you will acquire **Emelas Swords**. As these swords are strengthened, you will be able to use **Sword Skills** and **Sword Magic**. Utilizing and improving your Emelas Swords will be a major point in your adventure.

### How to Strengthen your Sword

Emelas Swords are strengthened at the **Emelas Studio**, however you will need a fixed amount of **Emel** to do this. Emel can be acquired from monsters.

  - **[Flame Sword Skill]**
    - **○** button hold
    
    As you hold the **○** button the attack power will increase. As you hold the button, a strong multi-hit flame will shoot out. This will do great damage against slow moving enemies.

  - **[Thunder Sword Skill]**

    By repeatedly pressing the **○** button you will perform a thrusting attack and penetrate through the enemy. Just attacking will invoke this attack, so this is a very easy technique to perform.

**QUEST HINTS**

- **Talk to various people**
  If you don’t know what to do next, first try to talk to various people. You may find a hint on what to do next. Also, you may get different information from somebody you have talked to once already.

- **Check out suspicious places**
  If you find something suspicious, press the B button. You may activate a device which will allow you to move further, or you may make a new discovery.

- **Increase your luck with Accessories**
  Equipping some Accessories may enable you to increase Adol’s luck. The higher his luck, the more often you will get a critical hit. Higher luck will also increase the percentage enemies drop items.

- **Strengthen your sword**
  If you cannot move forward because the enemies are too strong, remember to strengthen your sword, as well as increasing Adol’s level. Strengthening your sword will increase its attack power, and the sword’s ability & magic will be enhanced.

- **Don’t forget to equip tools**
  Equipping tools such as recovery items onto your Tool Holder will enable you to use them in-game. Note that you cannot open the menu during a battle with a Boss Monster, so remember to set recovery items to your Tool Holder in advance.

- **Downward Thrust**
  If it hits the target, you will get consecutive hits and damage your enemy. When many enemies attack you at once, draw them as close as possible and thrust downward when they get crowded in one area. You can defeat a great number of enemies at once.
